## **1. BASIS OF PRESENTATION**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“US GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, condensed consolidated financial statements do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. All intercompany transactions have been eliminated in consolidation. Operating results for the three and six months ended June 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018.

On February 12, 2018, the Company divested its Patient Experience (“PX”) business to Press Ganey Associates, Inc. (“Press Ganey”). This sale of the PX business resulted in the Company’s divestiture of the Company’s patient experience solutions business segment. The Company has classified the results of its PX segment as discontinued operations in its condensed consolidated statements of income and cash flows for all periods presented. Additionally, the related assets and liabilities have been reported as assets and liabilities of discontinued operations in the Company’s condensed consolidated balance sheet as of December 31, 2017. See Note 8 for additional information.

The condensed consolidated balance sheet at December 31, 2017 has been derived from the audited consolidated financial statements at that date and adjusted for discontinued operations as noted above but does not include all of the information and footnotes required by US GAAP for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto for the year ended December 31, 2017 (included in the Company’s Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 26, 2018).

## **2. RECENT ACCOUNTING PRONOUNCEMENTS**

### ***Accounting Standards Recently Adopted***

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, *Revenue from Contracts with Customers* (referred to as Accounting Standards Codification (“ASC”) Topic 606, or “ASC 606”). This guidance supersedes the revenue recognition requirements in ASC Topic 605, *Revenue Recognition* (“ASC 605”), and most industry-specific revenue recognition guidance throughout the Industry Topics of the Accounting Standards Codification. The updated guidance states that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASC 606 also includes Subtopic 340-40, *Other Assets and Deferred Costs – Contracts with Customers*, which requires deferral of incremental costs of obtaining a contract with a customer. Collectively, ASC 606 and Subtopic 340-40 are referred to as the “new standard.”

The Company adopted the new standard effective January 1, 2018 utilizing the modified retrospective approach. Adoption of the new standard resulted in changes to the Company’s accounting policies for revenue recognition, trade and other receivables, and deferred commissions. See Note 3 for additional information regarding ASC 606 and its impact on the Company’s balance sheet and statement of income.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments – Overall (Subtopic 825-10)*, which addresses certain aspects of the recognition, measurement, presentation, and disclosure of financial instruments. The guidance, among other things, requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. The Company adopted ASU 2016-01 effective January 1, 2018 on a prospective basis.

### ***Accounting Standards Not Yet Adopted***

In February 2016, the FASB issued ASU 2016-02, *Leases (“ASC 842”)*, which requires lessees to recognize assets and liabilities for most leases. The recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee is not expected to significantly change under such guidance. The standard will be effective for the first interim period within annual reporting periods beginning after December 15, 2018. The Company will adopt this ASU on January 1, 2019 and is currently evaluating the impact that adoption of this ASU will have on the Company’s consolidated financial position and results of operations.

In June 2016, the FASB issued ASU 2016-03, *Financial Instruments—Credit Losses (“ASC 326”): Measurement of Credit Losses on Financial Instruments*, which amends guidance on reporting credit losses for assets held at amortized cost basis and available for sale debt securities. For assets held at amortized cost basis, ASC 326 eliminates the probable initial recognition threshold in current GAAP and, instead, requires an entity to reflect its current estimate of all expected credit losses. The standard will be effective for the first interim period within annual reporting periods beginning after December 15, 2019. The Company will adopt this ASU on January 1, 2020 and is currently evaluating the impact that adoption of this ASU will have on the Company’s consolidated financial position and results of operations.

**3. REVENUE RECOGNITION AND SALES COMMISSIONS**

***Adoption of ASC 606, Revenue from Contracts with Customers***

On January 1, 2018, the Company adopted the new standard using the modified retrospective approach applied to those contracts which were not completed as of January 1, 2018. As such, results for reporting periods beginning after January 1, 2018 are presented under ASC 606, while prior period amounts continue to be reported in accordance with ASC 605.

The cumulative effect of the changes made to the Company's consolidated January 1, 2018 balance sheet in connection with the adoption of ASC 606 was as follows (in thousands):

<b>Balance Sheet</b>	<b>Balance at December 31, 2017</b>	<b>ASC 606 Adjustments</b>	<b>Balance at January 1, 2018</b>

**Revenue Recognition**

Revenues are recognized when control of the promised goods or services is transferred to the customer in an amount that reflects the consideration the Company expects to be entitled to in exchange for transferring those goods or services.

Revenue is recognized based on the following five step model:

- Identification of the contract with a customer
- Identification of the performance obligations in the contract
- Determination of the transaction price
- Allocation of the transaction price to the performance obligations in the contract
- Recognition of revenue when, or as, the Company satisfies a performance obligation

The following table represents our revenues included in continuing operations from contracts with customers disaggregated by revenue source for the three and six months ended June 30, 2018 (in thousands). Sales taxes are excluded from revenues.

Segments	Three Months Ended June 30, 2018			Six Months Ended June 30, 2018

Total revenues	\$ 46,968	\$ 10,040	\$ 57,008	\$ 91,915	\$ 19,951	\$ 111,866

**3. REVENUE RECOGNITION AND SALES COMMISSIONS (continued)**

Subscription/SaaS services revenues primarily consist of fees that provide customers access to one or more of our SaaS-based platforms and/or courseware subscriptions, with routine customer support. Revenue is generally recognized over time over the contract term beginning on the date that the service is made available to the customer. Subscription/SaaS contracts are generally one to five years in length, billed annually, semi-annually, quarterly, or monthly in advance, and are non-cancelable.

Professional services revenues primarily consist of fees for implementation services, custom courseware development, as well as training. The majority of our professional services contracts are billed in advance based on a fixed price basis, and revenue is recognized over time as the services are performed. For both subscription/SaaS services and professional services, the time between billing the customer and when performance obligations are satisfied is not significant.

Our contracts with customers often contain multiple performance obligations. For these contracts, the Company accounts for individual performance obligations separately if they are distinct. The contract price, which represents transaction price, is allocated to the separate performance obligations on a relative standalone selling price basis. We generally determine standalone selling prices based on the standard list price for each product, taking into consideration certain factors, including contract length and the number of subscribers within the contract.

We receive payments from customers based on billing schedules established in our contracts. Accounts receivable - unbilled represent contract assets related to our conditional right to consideration for subscription/SaaS and professional services contracts where performance has occurred under the contract. Accounts receivable are primarily comprised of trade receivables that are recorded at the invoice amount, net of an allowance for doubtful accounts, when the right to consideration becomes unconditional.

Other receivables, which are included within Accounts Receivable, include receivables from certain content partners and are not material. For the three months ended June 30, 2018, the Company did not recognize any impairment losses on receivables and contract assets arising from the Company's contracts with customers, compared to \$270,000 for the three months ended June 30, 2017. For the six months ended June 30, 2018 and 2017, the Company recognized \$390,000 and \$470,000 in impairment losses on receivables and contract assets arising from the Company's contracts with customers.

Deferred revenue represents contract liabilities that are recorded when cash payments are received or are due in advance of our satisfaction of performance obligations. During the three and six months ended June 30, 2018, we recognized approximately \$33.8 million and \$48.0 million of revenue from amounts included in deferred revenues at the beginning of the period. As of June 30, 2018, approximately \$365 million of revenue is expected to be recognized from remaining performance obligations under contract with customers. We expect to recognize revenue on approximately 48% of these remaining performance obligations over the next 12 months, with the remaining amounts recognized thereafter.

***Sales Commissions***

Sales commissions earned by our sales force are considered incremental and recoverable costs of obtaining a contract with a customer. The Company's sales commission plans include multiple payments, including initial payments in the period a customer contract is obtained and subsequent payments either 15 or 27 months after the initial payment. Under ASC 606, costs to acquire contracts with customers, such as the initial sales commission payment, are capitalized and amortized consistent with the pattern of revenue recognition, whereas subsequent sales commission payments which require a substantive performance condition of the employee are expensed ratably through the payment date. In contrast, under ASC 605, initial sales commission payments were expensed in the period earned. Under ASC 606, the initial commission payments are capitalized in the period a customer contract is obtained and are amortized consistent with the transfer of the goods or services to the customer over the expected period of benefit. The capitalized contract cost is included in Deferred commissions in the accompanying condensed consolidated balance sheet. The expected period of benefit is the contract term, except when the commission payment is expected to provide economic benefit to the Company for a period longer than the contract term, such as for new customer or incremental sales where renewals are expected and renewal commissions are not commensurate with initial commissions. Non-commensurate commissions are amortized over the greater of the contract term or technological obsolescence period of approximately three years. The Company recorded amortization of deferred commissions of approximately \$1.9 million and \$3.7 million for the three and six months ended June 30, 2018 respectively, which is included in Sales and marketing expenses in the accompanying condensed consolidated statements of income.

**4. INCOME TAXES**

Income taxes are accounted for using the asset and liability method, whereby deferred tax assets and liabilities are determined based on the temporary differences between the financial statement and tax bases of assets and liabilities measured at tax rates that will be in effect for the year in which the differences are expected to affect taxable income.

During the three months ended June 30, 2018 and 2017, the Company recorded a provision for income taxes from continuing operations of approximately \$1.1 million and \$741,000, respectively. During both the six months ended June 30, 2018 and 2017, the Company recorded a provision for income taxes from continuing operations of approximately \$1.5 million. The Company's effective tax rate for continuing operations for the six months ended June 30, 2018 and 2017 was 17% and 28%, respectively. During the six months ended June 30, 2018 and 2017, the Company recorded excess tax benefits primarily from stock option exercises of approximately \$663,000 and \$419,000, respectively, as a component of the provision for income taxes. The Company's effective tax rate primarily reflects the statutory corporate income tax rate, the net effect of state taxes, and the effect of various permanent tax differences.

**5. STOCKHOLDERS' EQUITY*****Dividends on Common Stock***

On February 12, 2018, the Company's Board of Directors declared a \$1.00 per common share special cash dividend, which was paid on April 3, 2018 to shareholders of record on March 6, 2018.

***Stock Based Compensation***

The Company has stock awards outstanding under two stock incentive plans: the Company's 2016 Omnibus Incentive Plan and 2010 Stock Incentive Plan. The Company accounts for its stock based compensation plans using the fair-value based method for costs related to share based payments, including stock options and restricted share units ("RSUs"). During the six months ended June 30, 2018, the Company issued 83,168 RSUs, subject to service-based time vesting, with a weighted average grant date fair value of \$24.70 per share, measured based on the closing fair market value of the Company's stock on the date of grant. During the six months ended June 30, 2017, the Company issued 86,727 RSUs, subject to service-based time vesting, with a weighted average grant date fair value of \$23.54 per share, measured based on the closing fair market value of the Company's stock on the date of grant.

During the three months ended June 30, 2018, the Company issued 70,000 performance-based RSUs, the vesting of which occurs over a five year period and is contingent upon continued service and achieving certain performance criteria established by the Compensation Committee on an annual basis. None of the performance criteria for these awards had been established as of June 30, 2018.

Total stock based compensation expense recorded for the three and six months ended June 30, 2018 and 2017, which is recorded within continuing operations in the condensed consolidated statements of income, is as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Cost of revenues (excluding depreciation and amortization)	\$ 10	\$ 8	\$ 18	\$ 22

Other general and administrative	295	289	601	553
Total stock based compensation expense	\$ 427	\$ 436	\$ 846	\$ 840

**6. EARNINGS PER SHARE**

Basic earnings per share is computed by dividing the net income available to common shareholders for the period by the weighted average number of common shares outstanding during the period. Diluted earnings per share is computed by dividing the net income available to common shareholders for the period by the weighted average number of potentially dilutive common and common equivalent shares outstanding during the period. Common equivalent shares are composed of incremental common shares issuable upon the exercise of stock options and RSUs subject to vesting. The dilutive effect of common equivalent shares is included in diluted earnings per share by application of the treasury stock method. The total number of common equivalent shares excluded from the calculations of diluted earnings per share, due to their anti-dilutive effect or contingent performance conditions, was approximately 70,000 and 31,000 for the three months ended June 30, 2018 and 2017, respectively, and approximately 114,000 and 87,000 for the six months ended June 30, 2018 and 2017, respectively.

**6. EARNINGS PER SHARE (continued)**

The following table sets forth the computation of basic and diluted earnings per share for the three and six months ended June 30, 2018 and 2017 (in thousands, except per share data):

**7. MARKETABLE SECURITIES**

At June 30, 2018 and December 31, 2017, the fair value of marketable securities, which were all classified as available for sale, included the following (in thousands):

	June 30, 2018			
	Adjusted Cost	Unrealized Gains	Unrealized Losses	Fair Value
<b>Level 2:</b>				
Corporate debt securities	\$ 34,506	\$ —	\$ (31)	\$ 34,475

Total	<u>\$ 46,388</u>	<u>\$ 2</u>	<u>\$ (40)</u>	<u>\$ 46,350</u>

The carrying amounts reported in the condensed consolidated balance sheet approximate the fair value based on quoted market prices or alternative pricing sources and models utilizing market observable inputs. As of June 30, 2018, the Company does not consider any of its marketable securities to be other than temporarily impaired. During the six months ended June 30, 2018 and 2017, the Company did not reclassify any items out of accumulated other comprehensive income to net income. All investments in marketable securities are classified as current assets on the balance sheet because the underlying securities mature within one year from the balance sheet date.

## 8. DISCONTINUED OPERATIONS

*Patient Experience*

On February 12, 2018, the Company divested PX to Press Ganey for \$65.5 million in cash (subject to adjustment based on the working capital of the PX business at closing), resulting in a gain, net of tax, of \$19.1 million. Approximately \$6.55 million of the proceeds are being held in escrow for a period of time following the closing as a source of recovery for indemnification claims by Press Ganey. The Company determined the fair value of the contingent consideration asset based on the likelihood of cash proceeds from the escrow. This contingency is remeasured at fair value based on changes in facts each period through the *(Loss) gain on sale of discontinued operations* line within the condensed consolidated statement of income. The sale of the PX business was effected (i) by the contribution by the Company of specified assets and certain liabilities used in the PX business to a newly-formed wholly-owned subsidiary of the Company, and (ii) immediately thereafter, the sale by the Company to Press Ganey of all the outstanding equity interests of such wholly-owned subsidiary. In connection with such contribution, the Company retained certain liabilities related to the PX business.

This sale of the PX business resulted in the Company's divestiture of the Company's patient experience solutions business segment. The Company has classified the results of its patient experience solutions business segment as discontinued operations in its condensed consolidated statements of income and cash flows for all periods presented. Additionally, the related assets and liabilities have been reported as assets and liabilities of discontinued operations in the Company's condensed consolidated balance sheet as of December 31, 2017.

The financial results of the PX business for the period prior to divestiture during the six months ended June 30, 2018, and during the six months ended June 30, 2017, are presented in discontinued operations in the Company's condensed consolidated statement of income. The following table presents financial results of the PX business (in thousands):

**9. BUSINESS SEGMENTS**

The Company provides services to healthcare organizations and other members within the healthcare industry. The Company's services are focused on the delivery of workforce development products and services (HealthStream Workforce Solutions) and provider credentialing, privileging, and enrollment products and services (HealthStream Provider Solutions).

As noted above, the sale of the PX business on February 12, 2018 resulted in the Company's divestiture of the Company's Patient Experience Solutions segment. Beginning with the first quarter of 2018, the Company classified the results of its Patient Experience segment as discontinued operations in its condensed consolidated statements of income and cash flows for all periods presented. Additionally, the related assets and liabilities associated with the discontinued operations are shown separately in the Company's condensed consolidated balance sheet as of December 31, 2017. See Note 8 for additional information.

**9. BUSINESS SEGMENTS (continued)**

The Company measures segment performance based on operating income before income taxes and prior to the allocation of certain corporate overhead expenses, interest income, interest expense, and depreciation. The Unallocated component below includes corporate functions, such as accounting, human resources, legal, investor relations, administrative, and executive personnel, depreciation, a portion of amortization, and certain other expenses, which are not currently allocated in measuring segment performance. The following is the Company's business segment information for the three and six months ended June 30, 2018 and 2017 and as of June 30, 2018 and December 31, 2017 (in thousands).

Cash and cash equivalents and marketable securities are not allocated to individual segments, and are included within Unallocated. A significant portion of property and equipment assets are included within Unallocated.

**10. DEBT****Revolving Credit Facility**

The Company entered into a First Amendment to Revolving Credit Agreement dated as of November 13, 2017, amending the Company's Revolving Credit Facility, dated as of November 24, 2014 ("Revolving Credit Facility") with SunTrust Bank ("SunTrust"), which amendment extended the maturity date under the Revolving Credit Facility to November 24, 2018. Under the Revolving Credit Facility, the Company may borrow up to \$50.0 million, which includes a \$5.0 million swing line subfacility and a \$5.0 million letter of credit subfacility, as well as an accordion feature that allows the Company to increase the Revolving Credit Facility by a total of up to \$25.0 million, subject to securing additional commitments from existing lenders or new lending institutions. The obligations under the Revolving Credit Facility are guaranteed by each of the Company's subsidiaries. At the Company's election, the borrowings under the Revolving Credit Facility bear interest at either (1) a rate per annum equal to the highest of SunTrust's prime rate or 0.5% in excess of the Federal Funds Rate or 1.0% in excess of one-month LIBOR (the "Base Rate"), plus an applicable margin, or (2) the one, two, three, or six month per annum LIBOR for deposits in the applicable currency (the "Eurocurrency Rate"), as selected by the Company, plus an applicable margin. The applicable margin for Eurocurrency Rate loans depends on the Company's funded debt leverage ratio and varies from 1.50% to 2.00%. The applicable margin for Base Rate loans depends on the Company's funded debt leverage ratio and varies from 0.50% to 1.50%. Commitment fees and letter of credit fees are also payable under the Revolving Credit Facility. Principal is payable in full at maturity on November 24, 2018, and there are no scheduled principal payments prior to maturity. The Company is required to pay a commitment fee ranging between 20 and 30 basis points per annum of the average daily unused portion of the Revolving Credit Facility, depending on the Company's funded debt leverage ratio.

The purpose of the Revolving Credit Facility is for general working capital needs, permitted acquisitions (as defined in the Revolving Credit Facility), and for stock repurchase and/or redemption transactions that the Company may authorize.

**10. DEBT (continued)**

The Revolving Credit Facility contains certain covenants that, among other things, restrict additional indebtedness, liens and encumbrances, changes to the character of the Company's business, acquisitions, asset dispositions, mergers and consolidations, sale or discount of receivables, creation or acquisitions of additional subsidiaries, and other matters customarily restricted in such agreements.

In addition, the Revolving Credit Facility requires the Company to meet certain financial tests, including, without limitation:

- a funded debt leverage ratio (consolidated debt/consolidated EBITDA) of not greater than 3.0 to 1.0; and
- an interest coverage ratio (consolidated EBITDA/consolidated interest expense) of not less than 3.0 to 1.0.

As of June 30, 2018, the Company was in compliance with all covenants. There were no balances outstanding on the Revolving Credit Facility as of or during the three and six months ended June 30, 2018.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Special Cautionary Notice Regarding Forward-Looking Statements

You should read the following discussion and analysis in conjunction with our condensed consolidated financial statements and related notes included elsewhere in this report and our audited consolidated financial statements and the notes thereto for the year ended December 31, 2017, appearing in our Annual Report on Form 10-K that was filed with the Securities and Exchange Commission ("SEC") on February 26, 2018 (the "2017 Form 10-K"). Statements contained in this Quarterly Report on Form 10-Q that are not historical facts are forward-looking statements that the Company intends to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Statements that are predictive in nature, that depend on or refer to future events or conditions, or that include words such as "anticipates," "believes," "could," "estimates," "expects," "intends," "may," "plans," "potential," "predicts," "projects," "should," "will," "would," and similar expressions are forward-looking statements.

The Company cautions that forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. Forward-looking statements reflect our current views with respect to future events and are based on assumptions and subject to risks and uncertainties. Given these uncertainties, you should not place undue reliance on these forward-looking statements.

In evaluating any forward-looking statement, you should specifically consider the information regarding forward-looking statements and the information set forth under the caption Part I, Item 1A. Risk Factors in our 2017 Form 10-K and the information regarding forward-looking statements and other disclosures in our 2017 Form 10-K, earnings releases and other filings with the SEC from time to time, as well as other cautionary statements contained elsewhere in this report, including the matters discussed in "Critical Accounting Policies and Estimates." We undertake no obligation beyond that required by law to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future. ### Overview

HealthStream provides workforce and provider solutions for healthcare organizations—all designed to assess and develop the people that deliver patient care, which, in turn, supports the improvement of business and clinical outcomes. Our workforce products are used by healthcare organizations to meet a broad range of their training, certification, competency assessment, performance appraisal, and development needs. Our provider products are used by healthcare organizations for provider credentialing, privileging, call center, and enrollment needs. HealthStream's customers include healthcare organizations, pharmaceutical and medical device companies, and other participants in the healthcare industry.

On February 12, 2018, the Company divested PX to Press Ganey for \$65.5 million in cash (subject to adjustment based on the working capital of the PX business at closing), resulting in a gain, net of tax, of \$19.1 million. This sale of the PX business resulted in the Company's divestiture of the Company's patient experience solutions business segment. With the proceeds of this sale, our Board of Directors declared a \$1.00 per common share special cash dividend, which was paid on April 3, 2018 to shareholders of record on March 6, 2018. For additional information regarding the disposition of the PX business, including certain pro forma financial information reflecting the disposition of the PX business, see our Current Report on Form 8-K filed with the SEC on February 12, 2018.

Key financial indicators of operations for the second quarter of 2018 are set forth in the bullets below. These indicators (i) reflect results from continuing operations (i.e., 2017 and 2018 results do not include the gain on the sale of the PX business or the results of operations of such business prior to this sale), and (ii) 2018 results are presented in accordance with Accounting Standards Codification ("ASC") Topic 606, *Revenue from Contracts with Customers* ("ASC 606"), whereas results for 2017 are presented in accordance with ASC Topic 605, *Revenue Recognition* ("ASC 605").

- Revenues of \$57.0 million in the second quarter of 2018, up 8% from \$52.9 million in the second quarter of 2017; with \$456,000 positive impact in the second quarter of 2018 from the application of ASC 606
- Operating income of \$4.3 million in the second quarter of 2018, up 52% from \$2.8 million in the second quarter of 2017; with \$339,000 positive impact in the second quarter of 2018 from the application of ASC 606
- Income from continuing operations of \$3.7 million in the second quarter of 2018, up 64% from \$2.2 million in the second quarter of 2017; with \$256,000 positive impact in the second quarter of 2018 from the application of ASC 606
- Earnings per share (EPS) from continuing operations of \$0.11 per share (diluted) in the second quarter of 2018, compared to EPS from continuing operations of \$0.07 per share (diluted) in the second quarter of 2017
- Adjusted EBITDA<sup>1</sup> from continuing operations of \$10.7 million in the second quarter of 2018, up 16% from \$9.2 million in the second quarter 2017; with \$339,000 positive impact in the second quarter of 2018 from the application of ASC 606

(1) Adjusted EBITDA and Adjusted EBITDA from continuing operations are non-GAAP financial measures. A reconciliation of Adjusted EBITDA to net income and a reconciliation of Adjusted EBITDA from continuing operations to net income from continuing operations, and disclosure regarding why we believe that these non-GAAP financial measures provide useful information to investors, is included later in this report.

## Critical Accounting Policies and Estimates

The Company's condensed consolidated financial statements are prepared in accordance with US GAAP. These accounting principles require us to make certain estimates, judgments, and assumptions during the preparation of our financial statements. We believe the estimates, judgments, and assumptions upon which we rely are reasonable based upon information available to us at the time they are made. These estimates, judgments, and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements, as well as the reported amounts of revenues and expenses during the periods presented. To the extent there are material differences between these estimates, judgments, or assumptions and actual results, our financial statements will be affected.

The accounting policies and estimates that we believe are the most critical in fully understanding and evaluating our reported financial results include the following:

- Revenue recognition and sales commissions
- Accounting for income taxes
- Software development costs
- Goodwill, intangibles, and other long-lived assets
- Allowance for doubtful accounts
- Stock based compensation

In many cases, the accounting treatment of a particular transaction is specifically dictated by US GAAP and does not require management's judgment in its application. There are also areas where management's judgment in selecting among available alternatives would not produce a materially different result. See Notes to Condensed Consolidated Financial Statements in our 2017 Form 10-K and the Notes to the Condensed Consolidated Financial Statements herein, which contains additional information regarding our accounting policies and other disclosures required by US GAAP. There have been no changes in our critical accounting policies and estimates from those reported in our 2017 Form 10-K except as disclosed in the Notes to the Condensed Consolidated Financial Statements herein. Note 2 in the Notes to Condensed Consolidated Financial Statements summarizes new accounting guidance issued by the Financial Accounting Standards Board ("FASB") that has been recently adopted by the Company, or not yet adopted by the Company, and our evaluation of such accounting guidance and the anticipated impact of such guidance (if known) on the Company. Note 3 summarizes our critical accounting policies related to the new revenue recognition accounting standard and its impact on our financial results as reflected in our balance sheet and statement of income.

### Three Months Ended June 30, 2018 Compared to Three Months Ended June 30, 2017

*Revenues, net.* Revenues increased approximately \$4.1 million, or 8%, to \$57.0 million for the three months ended June 30, 2018 from \$52.9 million for the three months ended June 30, 2017. The adoption of ASC 606 had a positive impact on revenues of approximately \$456,000 for the second quarter of 2018, compared to ASC 605. In addition, revenue for 2018 was positively impacted by lower deferred revenue write-downs, which were \$30,000 during the second quarter of 2018, compared to \$548,000 during the second quarter of 2017. See "Reconciliation of Non-GAAP Financial Measures" below for additional information.

Workforce Solutions	82%	84%	
Provider Solutions	18%	16%	

Revenues for HealthStream Workforce Solutions increased approximately \$2.7 million, or 6%, to \$47.0 million for the three months ended June 30, 2018 from \$44.3 million for the three months ended June 30, 2017. Revenue growth in 2018 was positively influenced by an increase in subscription-based product revenues. Our implemented subscriber base increased by 6% over the second quarter of 2017 to 4,748,000 implemented subscribers at June 30, 2018 compared to 4,482,000 implemented

subscribers at June 30, 2017. Additionally, we had a 5% increase in total subscribers over the second quarter of 2017, with 4,829,000 total subscribers at June 30, 2018 compared to 4,590,000 total subscribers at June 30, 2017.

Revenues for HealthStream Provider Solutions increased approximately \$1.3 million, or 16%, to \$10.0 million for the three months ended June 30, 2018 from \$8.7 million for the three months ended June 30, 2017. This increase was driven in part by increased revenues from the Morrisey Associates, Inc. (“MAI”) acquisition in August 2016. MAI revenues in the second quarter of 2018 increased 23% to \$3.2 million, net of deferred revenue write-downs, compared to \$2.6 million, net of deferred revenue write-downs, in the second quarter of 2017. Revenues from other Provider Solutions products increased \$771,000, or 13%, over the second quarter of 2017 due to growth from acquiring new customers and selling new products.

*Cost of Revenues (excluding depreciation and amortization).* Cost of revenues increased approximately \$2.0 million, or 9%, to \$23.2 million for the three months ended June 30, 2018 from \$21.2 million for the three months ended June 30, 2017. Cost of revenues as a percentage of revenues was 41% and 40% for the three months ended June 30, 2018 and 2017, respectively.

Cost of revenues for HealthStream Workforce Solutions increased approximately \$1.5 million to \$20.0 million and approximated 43% and 42% of revenues for HealthStream Workforce Solutions for the three months ended June 30, 2018 and 2017, respectively. The increase is primarily associated with increased royalties paid by us resulting from growth in courseware subscription revenues. Cost of revenues for HealthStream Provider Solutions increased approximately \$470,000 to \$3.3 million and approximated 32% of HealthStream Provider Solutions revenues for both the three months ended June 30, 2018 and 2017. The increase in amount is primarily associated with hosting costs and increases to personnel over the prior year period.

*Product Development.* Product development expenses increased approximately \$396,000, or 6%, to \$6.5 million for the three months ended June 30, 2018 from \$6.2 million for the three months ended June 30, 2017. Product development expenses as a percentage of revenues were 11% and 12% for the three months ended June 30, 2018 and 2017, respectively.

Product development expenses for HealthStream Workforce Solutions increased approximately \$272,000 to \$5.3 million and approximated 11% of revenues for HealthStream Workforce Solutions for both the three months ended June 30, 2018 and 2017. The increase in amount is primarily due to increases to personnel over the prior year period. Product development expenses for HealthStream Provider Solutions increased approximately \$124,000 to \$1.3 million and approximated 12% and 13% of revenues for HealthStream Provider Solutions for the three months ended June 30, 2018 and 2017, respectively. The increase is primarily due to increases to personnel over the prior year period.

*Sales and Marketing.* Sales and marketing expenses, including personnel costs, decreased approximately \$149,000, or 2%, to \$8.9 million for the three months ended June 30, 2018 from \$9.1 million for the three months ended June 30, 2017. Sales and marketing expenses were 16% and 17% of revenues for the three months ended June 30, 2018 and 2017, respectively.

Sales and marketing expenses for HealthStream Workforce Solutions decreased approximately \$541,000 to \$7.2 million and approximated 15% and 18% of revenues for HealthStream Workforce Solutions for the three months ended June 30, 2018 and 2017, respectively. The decrease is primarily due to lower sales commissions, which is a result of adopting ASC 606 effective January 1, 2018. Under ASC 606, costs to acquire contracts with customers, such as initial sales commission payments, are capitalized and amortized consistent with the pattern of revenue recognition, whereas under ASC 605 such costs were expensed, resulting in faster expense recognition. Sales and marketing expenses for HealthStream Provider Solutions increased approximately \$357,000 to \$1.4 million and approximated 14% and 12% of revenues for HealthStream Provider Solutions for the three months ended June 30, 2018 and 2017, respectively. The increase is due to increases to personnel and related costs over the prior year period. The unallocated portion of sales and marketing expenses increased approximately \$35,000 to \$345,000 compared to the prior year period primarily due to increases in general marketing spending.

*Other General and Administrative Expenses.* Other general and administrative expenses increased approximately \$347,000, or 5%, to \$8.0 million for the three months ended June 30, 2018 from \$7.7 million for the three months ended June 30, 2017. Other general and administrative expenses as a percentage of revenues were 14% and 15% of revenues for the three months ended June 30, 2018 and 2017, respectively.

Other general and administrative expenses for HealthStream Workforce Solutions increased approximately \$196,000 to \$2.2 million and approximated 5% of HealthStream Workforce Solutions revenues for both the three months ended June 30, 2018 and 2017. The increase in amount is primarily due to higher technology infrastructure expenses and increases in other general expenses. Other general and administrative expenses for HealthStream Provider Solutions decreased approximately \$13,000 to \$1.2 million and approximated 12% and 14% of HealthStream Provider Solutions revenues for the three months ended June 30, 2018 and 2017, respectively. The unallocated corporate portion of other general and administrative expenses increased approximately \$164,000 to \$4.6 million compared to the prior year period primarily due to increases to personnel, contract labor, and professional services expenses related to the implementation of ASC 606, but was partially offset by decreases in other general expenses.

*Depreciation and Amortization.* Depreciation and amortization was approximately \$6.0 million for both the three months ended June 30, 2018 and 2017.

*Other Income, Net.* Other income, net was approximately \$476,000 for the three months ended June 30, 2018 compared to \$165,000 for the three months ended June 30, 2017. The increase is a result of higher interest income from cash and investments in marketable securities.

*Income Tax Provision.* The Company recorded a provision for income taxes from continuing operations of approximately \$1.1 million for the three months ended June 30, 2018 compared to \$741,000 for the three months ended June 30, 2017. The Company's effective tax rate was 23% for the three months ended June 30, 2018 compared to 25% for the three months ended June 30, 2017. The decrease in the effective tax rate primarily resulted from the decrease in the enacted federal corporate income tax rate from 35% to 21% as a result of the Tax Cuts and Jobs Act of 2017 that was signed into law in December 2017. The effective tax rate for the second quarter of 2018 was also impacted by a decrease in excess tax benefits of \$334,000, primarily from stock option exercises, compared to the second quarter of 2017.

*(Loss) Income on Discontinued Operations.* (Loss) income from discontinued operations was a loss of \$1.1 million for the three months ended June 30, 2018, compared to income of \$41,000 for the three months ended June 30, 2017. Loss from discontinued operations during the three months ended June 30, 2018 was primarily due to a reduction in the gain previously recognized by the Company in connection with the sale of the PX business, which occurred on February 12, 2018.

*Income from Continuing Operations.* Income from continuing operations was \$3.7 million in the second quarter of 2018, up from \$2.2 million in the second quarter of 2017. The application of ASC 606 positively impacted income from continuing operations in the second quarter of 2018 in the amount of \$256,000. In addition, income from continuing operations was also impacted by lower deferred revenue write-downs, which were \$23,000 during the second quarter of 2018 compared to \$411,000 during the second quarter of 2017. See "Reconciliation of Non-GAAP Financial Measures" below for additional information. EPS from continuing operations was \$0.11 and \$0.07 per share (diluted) for the three months ended June 30, 2018 and 2017, respectively.

*Net Income.* Net income increased approximately \$279,000, to \$2.5 million for the three months ended June 30, 2018 from \$2.3 million for the three months ended June 30, 2017. Earnings per diluted share were \$0.08 and \$0.07 per share for the three months ended June 30, 2018 and 2017, respectively.

Adjusted EBITDA (which we define as net income before interest, income taxes, stock based compensation, and depreciation and amortization) from continuing operations increased 16% to \$10.7 million for the second quarter of 2018, compared to \$9.2 million for the second quarter of 2017. The application of ASC 606 had a positive impact of \$339,000 on Adjusted EBITDA from continuing operations during the second quarter of 2018.

Adjusted EBITDA decreased approximately \$658,000 to \$9.2 million for the three months ended June 30, 2018, compared to \$9.9 million for the three months ended June 30, 2017, which decrease was primarily driven by the divestiture of the PX business as noted above. See "Reconciliation of Non-GAAP Financial Measures" below for our reconciliation of Adjusted EBITDA from continuing operations and Adjusted EBITDA to the most directly comparable measures under US GAAP.

#### Six Months Ended June 30, 2018 Compared to Six Months Ended June 30, 2017

*Revenues, net.* Revenues increased approximately \$7.0 million, or 7%, to \$111.9 million for the six months ended June 30, 2018 from \$104.9 million for the six months ended June 30, 2017. The adoption of ASC 606 had a positive impact on revenues of approximately \$448,000 for the six months ended June 30, 2018, compared to ASC 605. In addition, revenue for 2018 was positively impacted by lower deferred revenue write-downs, which were \$76,000 during the six months ended June 30, 2018 compared to \$1.4 million during the six months ended June 30, 2017. See "Reconciliation of Non-GAAP Financial Measures" below for additional information.

A comparison of revenues by business segment is as follows (in thousands):

Revenues by Business Segment:	Six Months Ended June 30,		Percentage Change
	2018	2017	
Workforce Solutions	\$ 91,915	\$ 87,958	4%
Provider Solutions	19,951	16,929	18%
Total revenues, net	\$ 111,866	\$ 104,887	7%
<b>% of Revenues</b>			
Workforce Solutions	82%	84%	
Provider Solutions	18%	16%	

Revenues for HealthStream Workforce Solutions increased approximately \$4.0 million, or 4%, over the first six months of 2017. Revenue growth in 2018 was positively influenced by an increase in subscription-based product revenues, but was partially offset by an expected decline in ICD-10 readiness revenues of \$785,000.

Revenues for HealthStream Provider Solutions increased approximately \$3.0 million, or 18%, over the first six months of 2017. The increase was driven in part by increased revenues from the MAI acquisition in August 2016. MAI revenues for the six months ended June 30, 2018 increased \$1.4 million, net of deferred revenue write-downs, over the prior year period. Revenues from other Provider Solutions products increased \$1.6 million over the prior year period due to growth from acquiring new customers and selling new products.

*Cost of Revenues (excluding depreciation and amortization).* Cost of revenues increased approximately \$3.1 million, or 7%, to \$45.5 million for the six months ended June 30, 2018 from \$42.4 million for the six months ended June 30, 2017. Cost of revenues as a percentage of revenues was approximately 41% and 40% for the six months ended June 30, 2018 and 2017, respectively.

Cost of revenues for HealthStream Workforce Solutions increased approximately \$2.1 million to \$38.9 million and approximated 42% of revenues for HealthStream Workforce Solutions for both the six months ended June 30, 2018 and 2017. The increase in amount is primarily associated with increased royalties paid by us resulting from growth in courseware subscription revenues and additions to personnel. Cost of revenues for HealthStream Provider Solutions increased approximately \$1.0 million to \$6.6 million and approximated 33% of HealthStream Provider Solutions revenues for both the six months ended June 30, 2018 and 2017. The increase in amount is primarily associated with hosting costs and increases to personnel over the prior year period.

*Product Development.* Product development expenses increased approximately \$622,000, or 5%, to \$12.5 million for the six months ended June 30, 2018 from \$11.9 million for the six months ended June 30, 2017. Product development expenses as a percentage of revenues were approximately 11% of revenues for both the six months ended June 30, 2018 and 2017.

Product development expenses for HealthStream Workforce Solutions increased approximately \$433,000 to \$10.1 million and approximated 11% of revenues for HealthStream Workforce Solutions for both the six months ended June 30, 2018 and 2017. The increase in amount is primarily due to increases to personnel over the prior year period. Product development expenses for HealthStream Provider Solutions increased approximately \$189,000 to \$2.4 million and approximated 12% and 13% of revenues for HealthStream Provider Solutions for the six months ended June 30, 2018 and 2017, respectively. The increase in amount is primarily due to increases to personnel and related costs over the prior year period.

*Sales and Marketing.* Sales and marketing expenses, including personnel costs, decreased approximately \$641,000, or 3%, to \$18.0 million for the six months ended June 30, 2018 from \$18.6 million for the six months ended June 30, 2017. Sales and marketing expenses were approximately 16% and 18% of revenues for the six months ended June 30, 2018 and 2017, respectively.

Sales and marketing expenses for HealthStream Workforce Solutions decreased approximately \$877,000 to \$14.5 million and approximated 16% and 17% of revenues for HealthStream Workforce Solutions for the six months ended June 30, 2018 and 2017, respectively. The decrease in amount and as a percentage of revenues is primarily due to lower sales commissions compared to the prior year period as a result of adopting ASC 606 effective January 1, 2018. Sales and marketing expenses for HealthStream Provider Solutions increased approximately \$165,000 to \$2.8 million and approximated 14% and 16% of revenues for HealthStream Provider Solutions for the six months ended June 30, 2018 and 2017, respectively. The increase in amount is primarily associated with the increases to personnel and related costs over the prior year period. The unallocated portion of sales and marketing expenses increased approximately \$71,000 to \$658,000 compared to the prior year period primarily due to increases in general marketing spending.

*Other General and Administrative Expenses.* Other general and administrative expenses increased approximately \$873,000, or 6%, to \$15.8 million for the six months ended June 30, 2018 from \$14.9 million for the six months ended June 30, 2017. Other general and administrative expenses as a percentage of revenues were approximately 14% of revenues for both the six months ended June 30, 2018 and 2017.

Other general and administrative expenses for HealthStream Workforce Solutions increased approximately \$442,000 to \$4.3 million and approximated 5% and 4% of revenues for HealthStream Workforce Solutions for the six months ended June 30, 2018 and 2017, respectively. The increase is primarily due to increases in technology infrastructure investments and other general expenses. Other general and administrative expenses for HealthStream Provider Solutions decreased approximately \$56,000 to \$2.5 million and approximated 13% and 15% of revenues for HealthStream Provider Solutions for the six months ended June 30, 2018 and 2017, respectively. The decrease in amount and as a percentage of revenues is primarily associated with lower bad debt expense compared to the prior year period. The unallocated corporate portion of other general and administrative expenses increased approximately \$487,000 compared to the first six months of 2017 primarily due to increases to personnel and related costs over the prior year period.

*Depreciation and Amortization.* Depreciation and amortization increased approximately \$188,000, or 2%, to \$12.1 million for the six months ended June 30, 2018 from \$11.9 million for the six months ended June 30, 2017. The increase primarily resulted from amortization of capitalized software development.

*Other Income (Expense), Net.* Other income (expense), net was income of approximately \$789,000 for the six months ended June 30, 2018 compared to income of \$295,000 for the six months ended June 30, 2017. This increase is a result of higher interest income from cash and investments in marketable securities.

*Income Tax Provision.* The Company recorded a provision for income taxes of approximately \$1.5 million for both the six months ended June 30, 2018 and 2017. The Company's effective tax rate was approximately 17% for the six months ended June 30, 2018 compared to approximately 28% for the six months ended June 30, 2017. The decrease in the effective tax rate was primarily due to the decrease in the enacted federal corporate income tax rate from 35% to 21% as a result of the Tax Cuts and Jobs Act of 2017 that was signed into law in December 2017, coupled with an increase in excess tax benefits primarily from stock option exercises over the prior year period.

*(Loss) Income on Discontinued Operations.* (Loss) income from discontinued operations was income of \$19.1 million for the six months ended June 30, 2018, compared to a loss of \$381,000 for the six months ended June 30, 2017. Income from discontinued operations during the six months ended June 30, 2018 was primarily driven by the gain, net of tax, of \$19.1 million recognized by the Company in connection with the sale of the PX business, which occurred on February 12, 2018.

*Income from Continuing Operations.* Income from continuing operations was \$7.3 million for the six months ended June 30, 2018, up from \$3.9 million for the six months ended June 30, 2017. The application of ASC 606 positively impacted income from continuing operations in the six months ended June 30, 2018 in the amount of \$1.3 million. In addition, income from continuing operations was also impacted by lower deferred revenue write-downs, which were \$63,000 during the six months ended June 30, 2018 compared to \$990,000 during the six months ended June 30, 2017. See "Reconciliation of Non-GAAP Financial Measures" below for additional information. EPS from continuing operations was \$0.23 and \$0.12 per share (diluted) for the six months ended June 30, 2018 and 2017, respectively.

*Net Income.* Net income increased approximately \$22.8 million to \$26.4 million for the six months ended June 30, 2018 compared to \$3.6 million for the six months ended June 30, 2017. This year over year increase was attributable to the \$19.1 million gain from the sale of the PX business and \$3.4 million improvement in income from continuing operations. Earnings per diluted share were \$0.82 per share and \$0.11 per share for the six months ended June 30, 2018 and 2017, respectively.

Adjusted EBITDA (which we define as net income before interest, income taxes, stock based compensation, and depreciation and amortization) from continuing operations increased 17% to \$20.9 million for the six months ended June 30, 2018, compared to \$17.9 million for the six months ended June 30, 2017. The application of ASC 606 had a positive impact of \$1.7 million on Adjusted EBITDA from continuing operations during the six months ended June 30, 2018.

Adjusted EBITDA increased approximately \$31.9 million to \$50.5 million for the six months ended June 30, 2018 compared to \$18.5 million for the six months ended June 30, 2017. This increase resulted from the factors mentioned above. See Reconciliation of Non-GAAP Financial Measures below for our reconciliation of this calculation to measures under US GAAP.

## **Discontinued Operations**

On February 12, 2018, the Company divested its PX business to Press Ganey for \$65.5 million in cash (subject to adjustment based on the working capital of the PX business at closing). This sale of the PX business resulted in the divestiture of our patient experience solutions business segment. We recorded a gain on sale, net of tax, of \$19.1 million. With the proceeds of this sale, our Board of Directors declared a \$1.00 per common share special cash dividend, which was paid on April 3, 2018 to shareholders of record on March 6, 2018.

We have classified the results of our PX segment as discontinued operations in our condensed consolidated statements of income and cash flows for all periods presented. Additionally, the related assets and liabilities associated with the discontinued operations are classified as discontinued in our condensed consolidated balance sheet as of December 31, 2017. See Note 8 to our condensed consolidated financial statements included in this report for additional information.

## **Other Developments**

As previously announced, Laerdal Medical A/S, a Norwegian company ("Laerdal"), provided notice that, upon the December 31, 2018 expiration of our existing agreements with Laerdal regarding the HeartCode and Resuscitation Quality Improvement ("RQI") products, Laerdal does not intend to continue these existing agreements or enter into new agreements with HealthStream in relation to such products. Our Joint Marketing and Licensing Agreements with Laerdal for HeartCode and for RQI, respectively, remain unaltered and continue in effect through December 31, 2018. Up to that expiration date, we retain the right to offer HeartCode and RQI licenses that extend through December 31, 2020. We retain exclusivity of RQI sales to our

existing customer network through the agreement expiration date of December 31, 2018 and are prohibited from selling substantially similar products to HeartCode and RQI during that time.

Revenues associated with the sales of HeartCode and RQI products have been significant in recent years, although margins on such products have been lower than HealthStream's average margin. We continue to be actively engaged in efforts to broaden the scope and utilization of our simulation-related offerings to include a range of clinical competencies that extend beyond resuscitation, and integrate with our platform in ways that HeartCode and RQI never have. We intend to bring to market a broadened scope of simulation-based offerings, including— following the December 31, 2018 expiration date of our agreements with Laerdal—resuscitation programs. We believe these efforts have the potential to give rise to additional and higher margin opportunities than currently exist under the Laerdal agreements for HeartCode and RQI, and will likely feature solutions with a lower price point than our current offerings. However, there is no assurance that we will be successful in these efforts, and to the extent that new simulation-based or other solutions do not generate revenue and/or earnings following the December 31, 2018 expiration date in a manner that supplants the impact of these agreements with Laerdal, our revenue and results of operations following this expiration date may be adversely affected.

#### **Reconciliation of Non-GAAP Financial Measures**

This report contains certain non-GAAP financial measures, including non-GAAP net income, non-GAAP operating income, adjusted EBITDA from continuing operations, and adjusted EBITDA, which are used by management in analyzing our financial results and ongoing operational performance. These non-GAAP financial measures should not be considered as a substitute for, or superior to, measures of financial performance which are prepared in accordance with US GAAP and may be different from non-GAAP financial measures used by other companies.

In order to better assess the Company's financial results, management believes that adjusted EBITDA is an appropriate measure for evaluating the operating performance of the Company and provides useful information to investors because adjusted EBITDA reflects net income adjusted for certain non-cash and non-operating items. Management also believes that adjusted EBITDA from continuing operations is a useful measure for evaluating the operating performance of the Company because such measure does not include the results of operations of the PX business that we no longer own and thus reflects the Company's ongoing business operations and assists in comparing the Company's results of operations between periods. We also believe that adjusted EBITDA and adjusted EBITDA from continuing operations are useful to many investors and securities analysts to assess the Company's ongoing results from current operations. Adjusted EBITDA and adjusted EBITDA from continuing operations are non-GAAP financial measures and should not be considered as measures of financial performance under US GAAP. Because adjusted EBITDA and adjusted EBITDA from continuing operations are not financial measures determined in accordance with US GAAP, they are susceptible to varying calculations. Accordingly, adjusted EBITDA and adjusted EBITDA from continuing operations, as presented, may not be comparable to other similarly titled measures of other companies, have limitations as analytical tools, and should not be considered in isolation or as substitutes for an analysis of the Company's results as reported under US GAAP.

In recent years, including in connection with the August 2016 acquisition of MAI, the Company has acquired businesses whose net tangible assets include deferred revenue. In accordance with GAAP reporting requirements, following the completion of any such acquisition, the Company may record a write-down of deferred revenue to fair value as defined in GAAP. If the Company is required to record a write-down of deferred revenue, it may result in lower recognized revenue, operating income, and net income in subsequent periods.

In connection therewith, this report presents below non-GAAP operating income and non-GAAP net income, which in each case reflects the corresponding GAAP figures adjusted to exclude the impact of the deferred revenue write-down associated with fair value accounting for acquired businesses as referenced above. Management believes that the presentation of these non-GAAP financial measures assists investors in understanding the Company's performance between periods by excluding the impact of this deferred revenue write-down and provides a useful measure of the ongoing performance of the Company. As is typical for our business offerings, revenue for the acquired business is deferred and typically recognized over a one-to-two year period following the completion of any particular acquisition, so our GAAP revenues (and, thus, our GAAP operating income and net income) for this one-to-two year period will not reflect the full amount of revenues that would have been reported if the acquired deferred revenue was not written down to fair value.

A reconciliation of Adjusted EBITDA, Adjusted EBITDA from continuing operations, Non-GAAP operating income, and Non-GAAP net income to the most directly comparable GAAP measures is set forth below (in thousands).

### Liquidity and Capital Resources

Net cash provided by operating activities from continuing operations decreased by \$5.0 million to \$16.2 million during the six months ended June 30, 2018 from \$21.2 million during the six months ended June 30, 2017. The decrease compared to the prior year period primarily resulted from changes in receivables, prepaid expenses and other current assets, and current liabilities. The number of days sales outstanding (“DSO”) was 54 days for the second quarter of 2018 compared to 58 days for the second quarter of 2017. The decrease in DSO primarily relates to improved collections in the Provider Solutions segment as compared to the prior year period. The Company calculates DSO by dividing the average accounts receivable balance for the quarter by average daily revenues for the quarter. The Company’s primary sources of cash were receipts generated from the sales of our products and services. The primary uses of cash to fund operations included personnel expenses, sales commissions, royalty payments, payments for contract labor and other direct expenses associated with delivery of our products and services, and general corporate expenses.

Net cash provided by investing activities from continuing operations was approximately \$52.9 million for the six months ended June 30, 2018 compared to net cash used in investing activities from continuing operations of \$16.5 million for the six months ended June 30, 2017. During the six months ended June 30, 2018, the Company divested its PX business segment, receiving net proceeds from the sale of \$57.8 million (not including the \$6.55 million portion of the purchase price being held in escrow for a period of time following the closing as a source of recovery for indemnification claims) and had maturities of marketable securities of \$44.7 million. These sources of cash were partially offset by purchases of \$3.3 million of property and equipment, \$5.1 million for capitalized software development, and \$41.3 million for investments in marketable securities. During the six months ended June 30, 2017, the Company’s uses of cash included \$48.9 million for investments in marketable securities, \$3.7 million for purchases of property and equipment, and \$5.0 million for capitalized software development. These uses of cash were partially offset by maturities of marketable securities of \$41.0 million.

Net cash used in financing activities from continuing operations was approximately \$30.1 million for the six months ended June 30, 2018 compared to \$162,000 for the six months ended June 30, 2017. For the six months ended June 30, 2018, the Company made cash dividend payments of \$32.4 million and made an earn-out payment of \$37,000 in connection with a prior business combination. The uses of cash for both the six months ended June 30, 2018 and 2017 included the payment of

employee payroll taxes in relation to the vesting of restricted stock units (“RSU”). In this regard, the Company net-share settled the employee RSUs by withholding shares with value equivalent to the employee’s minimum statutory obligation for the applicable income and other employment taxes. The source of cash from financing activities for both the six months ended June 30, 2018 and 2017 was from the exercise of stock options.

Our balance sheet reflects positive working capital of \$128.4 million at June 30, 2018 compared to \$98.7 million at December 31, 2017. The increase in working capital is primarily a result of the proceeds from the PX business divestiture, offset by the payment of cash dividends. The Company’s primary source of liquidity as of June 30, 2018 was \$122.6 million of cash and cash equivalents and \$43.0 million of marketable securities. The Company also has a \$50.0 million revolving credit facility, all of which was available for additional borrowing at June 30, 2018. The revolving credit facility expires on November 24, 2018, unless earlier renewed or amended.

We believe that our existing cash and cash equivalents, marketable securities, cash generated from operations, and available borrowings under our revolving credit facility will be sufficient to meet anticipated working capital needs, new product development, and capital expenditures for at least the next 12 months.

In addition, the Company’s growth strategy includes acquiring businesses or making strategic investments in businesses that complement or enhance our business. It is anticipated that future acquisitions or strategic investments, if any, would be effected through cash consideration, stock consideration, or a combination of both. The issuance of our stock as consideration for an acquisition or to raise additional capital could have a dilutive effect on earnings per share and could adversely affect our stock price. Our revolving credit facility contains financial covenants and availability calculations designed to set a maximum leverage ratio of outstanding debt to adjusted EBITDA and an interest coverage ratio of adjusted EBITDA to interest expense. Therefore, the maximum borrowings against our revolving credit facility would be dependent on the covenant calculations at the time of borrowing. As of June 30, 2018, we were in compliance with all covenants. There can be no assurance that amounts available for borrowing under our revolving credit facility will be sufficient to consummate any possible acquisitions, and we cannot assure you that if we need additional financing that it will be available on terms favorable to us, or at all. Failure to generate sufficient cash flow from operations or raise additional capital when required in sufficient amounts and on terms acceptable to us could harm our business, financial condition and results of operations.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

The Company is exposed to market risk from changes in interest rates. We do not have any foreign currency exchange rate risk or commodity price risk. As of June 30, 2018 and during the six months then ended, the Company had no outstanding debt. We may become subject to interest rate market risk associated with any future borrowings under our revolving credit facility. The interest rate under the revolving credit facility varies depending on the interest rate option selected by the Company plus a margin determined in accordance with a pricing grid. We are also exposed to market risk with respect to our cash and investment balances, which approximated \$165.5 million at June 30, 2018. Assuming a hypothetical 10% decrease in interest rates for invested balances, interest income from cash and investments would decrease on an annualized basis by approximately \$409,000.

The Company’s investment policy and strategy is focused on investing in highly rated securities, with the objective of minimizing the potential risk of principal loss. The Company’s policy limits the amount of credit exposure to any single issuer and sets limits on the average portfolio maturity.

The above market risk discussion and the estimated amounts presented are forward-looking statements of market risk assuming the occurrence of certain adverse market conditions. Actual results in the future may differ materially from those projected as a result of actual developments in the market.

### **Item 4. Controls and Procedures**

#### **Evaluation of Controls and Procedures**

HealthStream’s chief executive officer and principal financial officer have reviewed and evaluated the effectiveness of the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934 (the “Exchange Act”)) as of the end of the period covered by this Quarterly Report. Based on that evaluation, the chief executive officer and principal financial officer have concluded that HealthStream’s disclosure controls and procedures were effective to ensure that the information required to be disclosed by the Company in the reports the Company files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and the information required to be disclosed in the reports the Company files or submits under the Exchange Act was accumulated and communicated to the Company’s management, including its chief executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

## Changes in Internal Control over Financial Reporting

There was no change in HealthStream's internal control over financial reporting that occurred during the second quarter of 2018 that has materially affected, or that is reasonably likely to materially affect, HealthStream's internal control over financial reporting.
