HEALTHSTREAM ANNOUNCES SECOND QUARTER 2020 RESULTS

NASHVILLE, Tenn. (July 27, 2020)—HealthStream, Inc. (Nasdaq: HSTM), a leading provider of workforce and provider solutions for the healthcare industry, announced today results for the second quarter ended June 30, 2020. In this earnings release, results for the six months ended June 30, 2020 and 2019 are presented for continuing operations only, unless otherwise indicated, as our results for the six months ended June 30, 2019 reflect a gain on the sale of our previously divested Patient Experience business included in discontinued operations. In contrast, our results for the three months ended June 30, 2020 and 2019 do not include any discontinued operations.

- Revenues of \$60.6 million in the second guarter of 2020, down 5% from \$63.8 million in the second guarter of 2019.
- Operating income of \$4.3 million in the second quarter of 2020 compared to \$2.3 million in the second quarter of 2019.
- Net income of \$3.4 million in the second quarter of 2020, up 43% from \$2.4 million in the second quarter of 2019.
- Earnings per share (EPS) of \$0.11 per share (diluted) in the second quarter of 2020 compared to \$0.07 per share (diluted) in the second quarter of 2019.
- Adjusted EBITDA1 of \$12.0 million in the second guarter of 2020, up 2% from \$11.8 million in the second guarter of 2019.

Financial Results:

Second Quarter 2020 Compared to Second Quarter 2019

Revenues for the second quarter of 2020 decreased by \$3.2 million, or 5 percent, to \$60.6 million, compared to \$63.8 million for the second guarter of 2019.

Revenues from our Workforce Solutions segment were \$48.9 million for the second quarter of 2020, compared to \$52.4 million for the second quarter of 2019. Revenues from legacy resuscitation products accounted for this decline, as such products decreased by \$4.8 million and were \$10.7 million in the second quarter of 2020 compared to \$15.5 million in the second quarter of 2019. Other workforce revenues increased by \$1.3 million, representing an increase in platform and content subscriptions of \$1.8 million, or 5 percent, offset by a decline in professional services revenues of \$0.5 million, or 34 percent. Revenues from our Provider Solutions segment were \$11.7 million for the second quarter of 2020, compared to \$11.4 million for the second quarter of 2019. Revenue growth of \$0.3 million was primarily attributable to revenues from the CredentialMyDoc acquisition, which was completed in December 2019.

1 Adjusted EBITDA is a non-GAAP financial measure. A reconciliation of adjusted EBITDA to net income and disclosure regarding why we believe adjusted EBITDA provides useful information to investors is included later in this release.

Operating income was \$4.3 million for the second quarter of 2020 compared to \$2.3 million from the second quarter of 2019. Operating costs and expenses were favorable compared to last year, primarily due to a \$2.2 million charge for stock-based compensation and related expense recorded in the second quarter of 2019 related to a stock grant to employees facilitated by our CEO. Also, certain operating expenses declined during the second quarter in response to the COVID-19 pandemic. Notably, operating expenses related to travel declined by \$1.1 million and operating expenses related to the cancellation of tradeshows declined \$0.2 million, each when compared to the second quarter of 2019. Although these reductions to expense were favorable to operating income results during the second quarter of 2020, they also are indicative of the negative impact the pandemic is having on our ability to market and sell our products through traditional, in-person means, which resulted in lower sales volumes during the second quarter of 2020 compared to the prior year quarter. These favorable expense reductions were offset in part by higher personnel costs due to increased staffing levels and higher amortization associated with capitalized software and acquired intangibles.

Net income was \$3.4 million in the second quarter of 2020, up 43 percent from \$2.4 million in the second quarter of 2019, and EPS was \$0.11 per share (diluted) in the second quarter of 2020, compared to \$0.07 per share (diluted) for the second quarter of 2019.

Adjusted EBITDA was \$12.0 million for the second quarter of 2020, up 2 percent from \$11.8 million in the second quarter of 2019.

At June 30, 2020, the Company had cash and cash equivalents and marketable securities of \$144.5 million. Capital expenditures incurred during the second guarter of 2020 were \$4.3 million.

Year-to-Date 2020 Compared to Year-to-Date 2019

For the first six months of 2020, revenues were \$122.1 million, a decrease of 5 percent over revenues of \$129.0 million for the first six months of 2019. Operating income for the first six months of 2020 increased by 51 percent to \$11.5 million, compared to \$7.6 million for the first six months of 2019. Income from continuing operations for the first six months of 2020 was \$10.5 million, up 47 percent from \$7.2 million for the first six months of 2019. The first six months of 2019 were negatively impacted by the \$2.2 million expense associated with the stock grant to employees facilitated by our CEO as noted above. Earnings per share from continuing operations were \$0.33 per share (diluted) for the first six months of 2020, compared to \$0.22 per share (diluted) for the first six months of 2019. Net income for the first six months of 2020 increased to \$10.5 million, compared to \$8.4 million for the first six months of 2019. Earnings per share were \$0.33 per share (diluted) for the first six months of 2020, compared to \$0.26 per share (diluted) for the first six months of 2019. Adjusted EBITDA from continuing operations decreased by 2 percent to \$23.8 million for the first six months of 2019. Adjusted EBITDA (from continuing and discontinued operations) decreased to \$23.8 million for the first six months of 2020, compared to \$25.9 million for the first six months of 2019.

Other Business Updates

At June 30, 2020, we had approximately 3.48 million contracted subscriptions to hStream™, our Platform-as-a-Service technology. hStream technology enables healthcare organizations and their respective workforces to easily connect to and gain value from the growing HealthStream ecosystem of applications, tools, and content.

Financial Outlook for 2020

The Company continues to believe that the extent, timing, and duration of COVID-19's negative impact on its operating results and financial condition will be driven by many factors, including the length and severity of the COVID-19 pandemic and the impact of the pandemic on economic activity,

particularly with respect to healthcare organizations. As a result of the unpredictable and evolving environment related to the COVID-19 pandemic, at this time the Company cannot reasonably quantify the impact that the pandemic will have on its operating and financial results for the remainder of 2020. Due to this continued uncertainty, the Company is not providing 2020 quidance in this earnings release.

"At mid-year 2020, it appears that the coronavirus pandemic is on a dramatic upswing in the U.S., pressing healthcare providers with continued excessive demand to address the needs of COVID-19 patients," said Robert A. Frist, Jr., Chief Executive Officer, HealthStream. "Our commitment to support them remains strong as everyone faces great uncertainty, which I believe is understandably resulting in some delayed purchasing decisions."

A conference call with Robert A. Frist, Jr., Chief Executive Officer, Scott A. Roberts, Chief Financial Officer and Senior Vice President, and Mollie Condra, Vice President of Investor Relations and Corporate Communications, will be held on Tuesday, July 28, 2020, at 9:00 a.m. (ET). To listen to the conference, please dial 877-647-2842 (no conference ID needed) if you are calling within the domestic U.S. or Canada. If you are an international caller, please dial 914-495-8564 (no conference ID needed). The conference may also be accessed by going to http://ir.healthstream.com/events.cfm

for the simultaneous Webcast of the call, which will subsequently be available for replay. The replay telephone numbers are 855-859-2056 (conference ID #8148633) for U.S. and Canadian callers and 404-537-3406 (conference ID #8148633) for international callers.

Use of Non-GAAP Financial Measures

This press release presents adjusted EBITDA from continuing operations and adjusted EBITDA, both of which are non-GAAP financial measures used by management in analyzing the Company's financial results and ongoing operational performance. In order to better assess the Company's financial results, management believes that net income before interest, income taxes, stock based compensation, depreciation and amortization, changes in fair value of non-marketable equity investments, and the derecognition of non-cash royalty expense resulting from our resolution of a mutual disagreement related to various elements of a past partnership which resulted in a reduction to cost of sales in the first quarter of 2020 ("adjusted EBITDA") is a useful measure for evaluating the operating performance of the Company because adjusted EBITDA reflects net income adjusted for certain non-cash and non-operating items. Management also believes that adjusted EBITDA from continuing operations is a useful measure for evaluating the operating performance of the Company because such measure excludes the results of operations of the PX business that we no longer own and the gain on sale in connection with the sale of such business in February 2018 and thus reflects the Company's ongoing business operations and assists in comparing the Company's results of operations between periods. We also believe that adjusted EBITDA and adjusted EBITDA from continuing operations are useful to many investors to assess the Company's ongoing results from current operations. Adjusted EBITDA and adjusted EBITDA from continuing operations are non-GAAP financial measures and should not be considered as measures of financial performance under GAAP. Because adjusted EBITDA and adjusted EBITDA from continuing operations are not measurements determined in accordance with GAAP, such non-GAAP financial measures are susceptible to varying calculations. Accordingly, adjusted EBITDA and adjusted EBITDA from continuing operations, as presented, may not be comparable to other similarly titled measures of other companies and have limitations as analytical tools. These non-GAAP financial measures should not be considered a substitute for, or superior to, measures of financial performance, which are prepared in accordance with GAAP, and may be different from non-GAAP financial measures used by other companies. Investors are encouraged to review the reconciliations of our GAAP to non-GAAP financial measures, which are set forth below in this release.
